Bombing Raids: How to Attack Industrial Complexes with Bombers

Selecting Bombers...

During the **Combat Move Phase**, left-click on your **Bomber**. **1**

Finding Industrial Complexes In Range

If there are valid Industrial Complexes  within range, they will glow blue.

Attacking The Industrial Complex

Right-click on a valid Industrial Complex **1** to attack it with your Bomber.

Tips

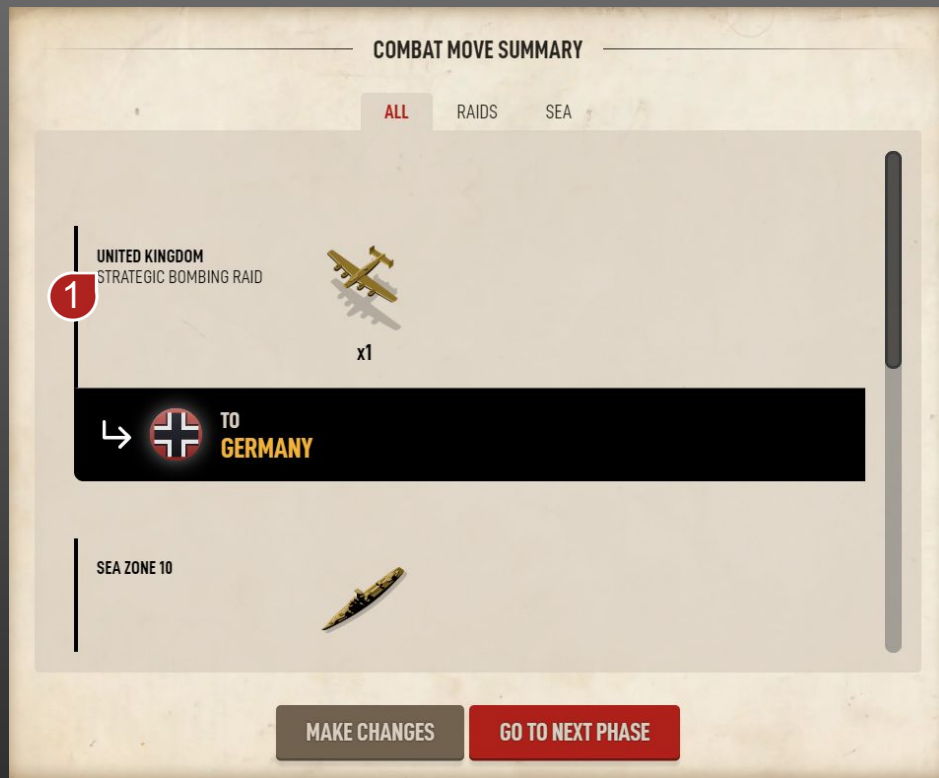

- ⚠️ Make sure you are selecting a **Bomber** and not a **Fighter** plane for your attack (tip: **Bombers** are bigger than **Fighter** planes). **Bombers** are the only units that can attack **Industrial Complexes**.
- ⚠️ Make sure you right-click directly on the **Industrial Complex** itself, and not the region where it's located.

Tips

⚠️ **Bombing Raid** arrows **1** will appear **red with a white line**, while a regular attack arrow will appear solid red.

⚠️ **The Info Panel** in the bottom left corner of the screen will show a **Bomb Icon 2** above your **Bomber** when you have sent it to attack an **Industrial Complex**.

Tips

⚠ Before you move onto the **Combat Phase**, make sure your **Combat Move Summary** says “**Strategic Bombing Raid**” **1** next to your **Bomber**.

- If this is not present, you are sending the **Bomber** to attack units in the region instead of the **Industrial Complex**.
